Use-Case Name: 2.1 Delete a class

Description: This use-case deletes a selected class from the list of existing classes, as well as the attendance records associated with the class.

Preconditions: Have at least one existing class

Flow of Events:

Scenario Name	Description
Scenario 1 (Basic Flow) Teacher deletes a class	1. Teacher views the list of classes then selects the class that he/she wants to modify. 2. The teacher clicks the "delete class" button. 3. The application pops-up a confirmation dialogue. 4. The application deletes the selected class from the database.

Activity Diagram of the Flow of Events:

Postcondition: The selected class is deleted or not.

Relationships: NONE

Special Requirements:
  NONE
